Virtues Campus Program

Education Model

The Virtues Campus program blends online university courses with an on-campus experience. This unique style of learning gives students the freedom of a flexible study schedule while allowing them to enjoy an on-campus experience where they collaborate on academic projects with their peers, participate in career-readiness activities, and study the Bible together.

While enrolled in college, students are encouraged to put their academic knowledge into practice immediately and build their professional experience by working a part-time job, participating in coaching, job shadowing, and engaging in volunteer activities. Our program design creates lifelong friendships, builds students' credentials, and establishes a professional community network that propels students toward their academic and career goals.

Blending the flexibility of online courses with the benefits of an on-campus experience.

Trained academic pastors are the heartbeat of our campuses, encouraging and equipping students to apply their studies in ways that integrate character, truth, and integrity.
